

TERMINAL TECHNOLOGIES (I) PVT. LTD.
Official Website: <https://terminaltechnology.com/>

=====

COMPANY OVERVIEW

=====

Terminal Technologies (I) Pvt. Ltd. is one of India's leading manufacturers of terminals, connectors, and interconnection solutions.

Founded in 1993 by:

- Mr. C. A. Anto
- Mr. Sanjay Negandhi

The company started as a three-person operation and has grown into a manufacturing organization with more than 1000 employees.

With over 30 years of manufacturing experience, Terminal Technologies delivers close to 2 billion connections annually for critical applications across automotive, appliances, electronics, and electrical industries.

About Us:
<https://terminaltechnology.com/about-us/>

=====

MISSION

=====

To provide world-class interconnection and connectivity solutions through innovation, engineering excellence, precision manufacturing, and customer-focused solutions.

=====

VISION

=====

To become a globally recognized leader in connector and terminal manufacturing by continuously improving technology, quality, and manufacturing excellence.

=====

KEY COMPANY STATISTICS

=====

- Founded: 1993
- Experience: 30+ Years
- Employees: 1000+
- Annual Connections: 2 Billion+
- Daily Production Capacity: 7 Million Parts+
- Customers: 500+
- Manufacturing Facilities: Multiple Plants

INDUSTRIES SERVED

1. Automotive
2. Electrical
3. Electronics
4. Home Appliances
5. Industrial Applications
6. EV Components

CORE CAPABILITIES

- Terminal Manufacturing
- Connector Manufacturing
- Precision Metal Stamping
- Tool Design & Development
- Injection Molding
- Selective Plating
- Product Engineering
- Product Development
- Automation Solutions
- Quality Assurance
- Supply Chain Management

PRODUCT CATEGORIES

TERMINALS

- Ring Terminals

- Fork Terminals
- Fuse Terminals
- Battery Terminals
- Bullet Terminals
- Mid Joint Terminals

CONNECTORS

- Male Connectors
- Female Connectors
- Automotive Connectors
- Sensor Connectors
- Head Lamp Connectors

SERIES PRODUCTS

- 025 Series
- 040 Series
- 060 Series
- 070 Series
- 090 Series
- 110 Series
- 187 Series
- 250 Series
- 312 Series
- 375 Series

OTHER PRODUCTS

- Fuse Boxes
- Relay Bases
- Corrugated Tubes
- Conduit Clamps
- Copper Bus Bars
- Plastic Connectors
- Custom Components

=====

MANUFACTURING STRENGTH

=====

TT offers complete in-house manufacturing capabilities.

Capabilities include:

- Product Design
- Tool Design
- Tool Manufacturing
- Prototyping
- Validation
- Metal Stamping
- Injection Molding
- Plating
- Assembly
- Testing
- Mass Production

TT provides complete part-based solutions from concept to production.

=====

QUALITY & CERTIFICATIONS

=====

Quality systems are designed to meet global automotive and industrial standards.

Key Focus Areas:

- Continuous Improvement
- Process Excellence
- Product Reliability
- Customer Satisfaction
- Manufacturing Precision

=====

TECHNOLOGY & INNOVATION

=====

Technology Areas:

- High-Speed Stamping
- Precision Tooling
- Selective Plating
- Automated Manufacturing
- Advanced Testing
- Product Development
- Engineering Validation

=====

CSR (CORPORATE SOCIAL RESPONSIBILITY)

=====

Theme:
"Connecting @ Heart"

CSR Activities Include:

- Rural Education
- Skill Development
- Medical Support
- Hunger Management
- Community Development

Highlights:

- Medical Mobile Vans
- Healthcare Access
- Rural Support Programs

=====

WHY CHOOSE TERMINAL TECHNOLOGIES

=====

- 30+ Years Industry Experience
- 2 Billion Connections Delivered Annually
- 1000+ Skilled Workforce
- Global Manufacturing Standards
- Complete In-House Manufacturing
- Strong Engineering Expertise
- Custom Product Development
- Automotive Industry Focus
- High Volume Production Capacity
- Trusted by Leading OEMs

=====

CONTACT INFORMATION

=====
